We need: - courageous truth-telling

(not just privately
"to power")

speak truth to the world

Though it's safer to speak truth - which
power doesn't like to hear - to power
is private (Pamell, McN...)

and can be effective (in particular cases,
more effective)

BUT

- courageous non-violence

for justice, freedom

Constitution, civil liberties

- courageous anti-~~violence~~ ^{unorganized} ^{uninspired}

intimidation of support, participation, defense,
silence, legitimization, rationalization

and NVR to it (and or alternatives to it)

and when it is popular,

patristic, obedient to authority
